

RB Digital a division of Rubenstein Bros. is proud to announce that it has been granted distribution rights to M & R's full line of Screen Printing Equipment in Western Canada. From our Winnipeg office through Saskatchewan, Alberta as well as British Columbia, we at Rubenstein Bros. in our 147th year of operations in Canada have always brought the best of products to our customers from around the world. We currently have on our management team several staff members who have managed a full in house screen printing operation. With this knowledge as well as extensive product education we at RB Digital will be able to offer our customers a total solution for their garment decorating needs, from screen printing to embroidery and from Digital printing to digital cutting. RB Digital now represents the finest lines in the industry from Tajima, M&R, Brother, Mimaki and GCC Laser systems.

The M&R Companies are the world's largest manufacturer of screen printing equipment. The M&R Division manufactures a wide range of textile & graphic presses and dryers, and a full line of pre-press, on-press, & post-press equipment. NuArc produces an extensive line of exposure units & vacuum frames. Amscomatic makes a wide variety of folders, printer/labelers, printer/taggers, standalone labelers & taggers, card insert systems, conveyors, auto-baggers, sealers, & stackers.
